

Where is the danger zone?

Side view of bus

Front view of bus

Back view of bus

Write down why you think there is a danger:

Mark with a cross all the danger zones that you can think of on the pictures above.

Think about getting on and off the bus and also about where the danger zones are when crossing the street to catch or leave the bus.

Imagine you were behind or at the side of the bus cycling to school, the bus had stopped briefly and the driver was just about to drive off.
